

I would like to lodge a complaint against Sinclair Broadcasting's decision to force their stations to air an anti-Kerry documentary days before the election. It is my understanding that public airways are to be used to serve the public interest. It does not serve the public interest to have those airways used by corporations seeking to control content in a way that is clearly biased and which seeks to give unfair advantage in what should be a democratic process of electing our officials. The power of the media to influence public opinion must always be used with the greatest respect for the public and our treasured political process. In this case, that power is being abused.

Thank you.
